Dear Sir:

INTRODUCTORY REMARKS

In response to the Office Action of June 3, 2004 consider the following remarks and reconsider the application.

Remarks begin on page 2 of this paper.

Appl. No. 10/619,847
Atty. Docket No. CM2496C
Amdt. Dated June 24, 2004
Reply to Office Action of 06/03/2004
Customer No. 27752

Election with Traverse under 37 CFR § 1.143

The Examiner has required the Applicants to restrict the claims of the above cationed application. Specifically, the Examiner alleges that the application contains claims directed to three patentably distinct inventions. The Examiner has designated Claims 1-10 as Invention I, Claims 11-25 as Invention II, and Claims 26-33 as Invention III.

Under MPEP § 803, election/restriction is proper when both of the following criteria are met: (1) The inventions must be independent or distinct as claimed; and (2) There must be a serious burden on the Examiner if the restriction is not required. The Examiner indicates that the class 422 and subclass 265 would be identical for both Invention I and II. Applicants respectfully submit that any prior art search set up for the particular Invention I will be coextensive with any search for the Invention II of the present invention. Applicants respectfully submit that examination of the present application, as a single unrestricted application, would not be unduly burdensome on the Examiner because a thorough art search of all of the identified classes and subclasses could easily be performed in a single application.

In view of the foregoing remarks, it is respectfully requested that the Examiner withdraw the requirement for restriction and allow Claims 1-33 to be prosecuted in the same application. Should the Examiner's restriction requirement not be withdrawn, Applicants hereby provisionally elect, with traverse until final disposition of the elected claims, Invention II which corresponds to current Claim 11-25.

Conclusion

Applicants respectfully request the Examiner to withdraw the restriction requirement and request reconsideration of this application and allowance of Claims 1-33.

Respectfully submitted,

By Cynthia L. Clay
